# Grow Your Career With Us

**AG**  
CO-OP AG TEAM

## Co-op AG Team

The Co-operative Retailing System (CRS) is a multi-billion dollar organization consisting of approximately 285 autonomous retail Co-ops with over 18,000 employees throughout Western Canada. Co-ops are locally-owned, with their roots in the community. Not only do Co-ops share their profits with their members, but Co-ops also support their communities through donations and involvement with various associations, clubs, committees, sports groups, and events.

The CRS prides itself on being a customer service-oriented organization. Our employees offer solutions and high quality products to rural communities and local farmers, creating relationships that are crucial to the success of the CRS. The Agro Department offers employees challenging professional and management careers, on-going training, and a variety of career advancement opportunities.

## Co-op AG Team Offers:

- a variety of positions including:
  - Agro Department Managers
  - Assistant Agro Department Managers
  - Agro Supervisors
  - Agronomists
  - Agro Department Manager Trainees
  - Summer Student Positions
- training, development and opportunities for career advancement.

- a variety of training experiences including field tours, diagnostic school, home study classes and off-site seminars.
- positions in various locations in Alberta, Saskatchewan and Manitoba.
- competitive wages and an excellent benefits package, which includes health, dental and pension plans, plus tuition assistance, employee recognition programs, and a staff purchase rebate.
- tuition reimbursement to post-secondary students who have completed their diploma or degree, followed by 2 consecutive years of CRS employment; graduates can be reimbursed 75% of their last year's tuition.

## Qualifications

- industry experience and a strong agricultural background.
- strong leadership qualities and excellent interpersonal skills.
- Agronomist positions require a diploma or degree in Agriculture, or a Certified Crop Advisor (CCA) designation.
